PRICES

As a continually evolving company, we reserve the right to change product specifications without prior notice. Prices are valid on orders placed from 1st February 2026. This issue supersedes all previous editions. Under current world market conditions, costs can be extremely volatile, and we reserve the right to review prices at any time prior to delivery. Colours represented in this brochure are as accurate as the printing process allows. Please see our website for a full copy of our terms & conditions.

All prices are inclusive of VAT at the current rate. Returns policy details are available on our website: [nuie.com](https://www.nuie.com)

- ☒ EXCLUDES WASTE AND OVERFLOW

BATH PANELS

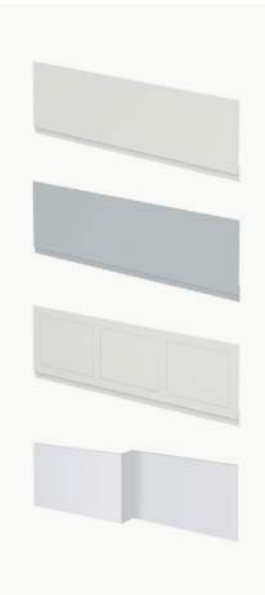

What material is halite made of?

Halite panels are constructed from a top quality UV stable expanded vinyl material known as Foamboard. High density PVC board is rigid and durable whilst still being lightweight flexible and totally waterproof.

Advantages of Halite over other types of bath panels

- Halite is 100% water resistant
- Halite will not crack or warp in wet or steamy environments.
- Halite is considerably more rigid than acrylic.
- Halite is completely formaldehyde free and is recyclable which means it is more eco-friendly.
- The lifespan of Halite bath panels is considerably more than that of MDF bath panels.
- Halite is lighter and easier to cut than MDF.

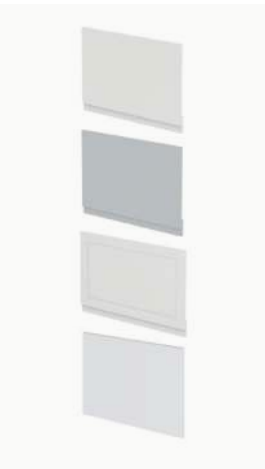

HALITE FRONT PANELS 18MM THICK

1500mm front panel with plinth	1500(l) x 480-550(max h)	White plain	237BPM1500-W	£109.00
